INTERDISTRICT ATTENDANCE APPEALS

The Tehama County Board of Education shall consider an appeal against any school district within the county for its failure or refusal to issue an interdistrict attendance permit to a student, or for its failure or refusal to enter into an interdistrict attendance agreement with another school district for the student’s attendance. (Education Code 46601)

If the request for interdistrict attendance involves a school district located within the county and a school district located in a different county, the County Board shall have jurisdiction if the denial of the permit, or the refusal or failure to enter into an agreement, is by the school district within the county. If both school districts deny the permit or refuse or fail to enter into an agreement, the County Board shall have jurisdiction only if the school district within the county is the student’s district of residence. (Education Code 46601)

The appeal shall be filed in writing, by a person having legal custody of the student, within 30 calendar days of the district’s failure or refusal to issue a permit, or to enter into an agreement allowing the interdistrict attendance. Failure to appeal within the required time is good cause for denial of an appeal. (Education Code 46601)

The appeal shall be accepted only upon verification by the Tehama County Superintendent of Schools or designee that appeals within the districts have been exhausted. (Education Code 46601)

Hearing

No later than 10 days prior to the hearing, the secretary to the County Board shall serve a notice upon all parties involved. The notice shall include details of the date, time and place of the hearing.

The County Board shall conduct a hearing within 30 calendar days after the appeal is filed, to determine whether the student should be permitted to attend school in the district of his/her choice. If it is impractical for the County Board to comply with the time requirement for the hearing, the County Board may extend the time period for up to an additional five school days. (Education Code 46601)

Final Order of the County Board

The County Board shall render its decision within three school days of the hearing unless the student requests a postponement. (Education Code 46601)

The County Board shall either grant or deny an appeal on its merits. However, if new evidence or grounds for the request are introduced, the County Board may remand the matter for further consideration by the district or districts.

SP 5123(a)

PROMOTION/ACCELERATION/RETENTION

The Tehama County Superintendent of Schools expects students to progress through each grade level within one school year. To accomplish this, instruction should accommodate the variety of ways that students learn and include strategies for addressing academic deficiencies when needed.

Students shall progress through the grade levels by demonstrating growth in learning and meeting grade-level standards of expected student achievement.

When high academic achievement is evident, the County Superintendent or designee may recommend a student for acceleration into a higher grade level. The student's maturity level shall be taken into consideration in making a determination to accelerate a student.

As early as possible in the school year, the County Superintendent or designee shall identify students who should be retained and who are at risk of being retained in accordance with law, Tehama County Department of Education policy, administrative regulation, and the following criteria.

Students shall be identified on the basis of grades. The following other indicators of academic achievement shall also be used:

- Curriculum based assessments
- Star results
- Mastery standards as evidenced by Department benchmarks

When any student in grades 2-8 is retained or recommended for retention, the County Superintendent or designee shall offer programs of direct, systematic, and intensive supplemental instruction in accordance with Education Code 37252.2 and Department policy.

The Superintendent or designee shall not disclose student records to a person, agency, or organization for immigration enforcement purposes without parental consent, a court order, or a judicial subpoena. If a department employee receives such a request, he/she shall immediately report the request to the Superintendent.

The Superintendent or designee shall not compile a list, registry, or database based on students’ national origin, ethnicity, or religious belief, practice, or affiliation, nor shall he/she disclose student information to federal government authorities for the purpose of compiling such a list, registry, or database for purposes or immigration enforcement. ADMINISTERING MEDICATION AND MONITORING HEALTH CONDITIONS

The Tehama County Superintendent of Schools recognizes that some students may need to take medication prescribed by a physician during the school day in order to be able to attend school and/or participate in the educational program. The County Superintendent or designee shall develop processes for the administration of medication to these students. For any student with a disability, as defined under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973, necessary medication shall be administered in accordance with the student's individualized education program or Section 504 accommodation plan.

If a parent/guardian chooses, he/she may administer the medication to his/her child at school or designate another individual who is not a school employee to do so on his/her behalf.

In addition, upon written request by the parent/guardian and with the approval of the student's physician, a student with a medical condition that requires frequent treatment, monitoring, or testing may be allowed to self-administer, self-monitor, and/or self-test. The student shall observe universal precautions in the handling of blood and other bodily fluids.

Administration of Medication by School Personnel

Prescribed medication may be administered by the school nurse or other designated school personnel only when the County Superintendent or designee has received written statements from both the student's physician and parent/guardian. (Education Code 49423; 5 CCR 600)

School nurses and other designated school personnel shall administer medications in accordance with law, Department policy, and administrative regulation and shall be afforded appropriate liability protection.

To the extent that the administration of a medication, such as epinephrine auto-injector or glucagon, is authorized by law, the County Superintendent or designee shall ensure that unlicensed personnel designated to administer it to students receive appropriate training from qualified medical personnel before any medication is administered. At a minimum, the training shall cover how and when such medication should be administered, recognition of symptoms and treatment, emergency follow-up procedures, and proper documentation and storage of medication. Such trained, unlicensed designated school personnel shall be supervised by and provided with emergency communication access to a school nurse, physician, or other appropriate individual.

The County Superintendent or designee shall maintain documentation of the training, ongoing supervision, as well as annual written verification of competency of such other designated school personnel.

INFECTIOUS DISEASES

The Tehama County Superintendent of Schools desires to protect students from risks posed by exposure to infectious diseases while providing an appropriate education for all students. The County Superintendent recognizes that prevention and education are the most effective means of limiting the spread of infectious diseases.

Infectious Disease Prevention

The County Superintendent or designee shall collaborate with parents/guardians and local health agencies and organizations to develop a comprehensive approach to disease prevention that promotes preventative measures and education of students and staff.

The County Superintendent or designee shall regularly review resources available from health experts to ensure that Tehama County Department of Education programs are based on the most up-to-date information.

The County Superintendent or designee shall ensure that the Department's comprehensive health education program provides information about the prevention of infectious diseases, including the nature of bloodborne pathogens and their transmission, as well as information to help prevent the spread of contagious diseases, such as a pandemic influenza. He/she shall also ensure that each school has sufficient infection prevention supplies that are easily accessible to staff.

Universal Precautions

Students and staff shall observe universal precautions in order to prevent exposure to bloodborne pathogens and to prevent the spread of infectious diseases.

The County Superintendent or designee shall inform students of the precautions to be used in cases of exposure to blood or other body fluids through injury, accident, or classroom instruction.

Students with Infectious Diseases

The County Superintendent or designee shall exclude students only in accordance with law, Department policy, and administrative regulation. Because bloodborne pathogens such as hepatitis B virus, hepatitis C virus, and human immunodeficiency virus (HIV) are not casually transmitted, the presence of infectious conditions of this type is not, by itself, sufficient reason to exclude students from attending school.

Parents/guardians are encouraged to inform the County Superintendent or designee if their child has an infectious disease so that school staff may work cooperatively with the student's parents/guardians to minimize the child's exposure to other diseases in the school setting. The County Superintendent or designee shall ensure that student confidentiality rights are strictly observed in accordance with law.
INFECTIONIOUS DISEASES  (continued)

News Media Contact

The County Superintendent or designee shall be the authorized spokesperson for matters relating to severe communicable, contagious, and infectious diseases of students in schools and programs operated by the Department. All medical issues related to severe communicable, contagious, or infectious diseases shall be referred to the County Health Department.

ASTHMA MANAGEMENT

Identification of Students with Asthma

The County Superintendent or designee shall, upon a student's registration for school and annually thereafter, request parents/guardians to notify the Program Administrator or designee, in writing, if their child has been diagnosed with asthma, has recently experienced symptoms or has a history of asthma, and/or is at risk for potentially severe asthma attacks. The request also shall encourage parents/guardians to provide such notification at any time during the school year that their child is so diagnosed.

The County Superintendent or designee shall keep a student's medical information in a secure location and maintain the confidentiality of student health records in accordance with law governing student records. A copy of a student's health record shall be provided to the school nurse, if any. In addition, pertinent information from the health record shall be released to other employees whose responsibilities require that they have access to such information in order to provide support services or to respond in an emergency, such as a student's teacher(s), coach(es), bus driver, and any other staff with responsibility for direct supervision of the student.

Individualized Asthma Management

When a student has been diagnosed with asthma or when such a student registers for school, the County Superintendent or designee shall request that the parent/guardian work with the school nurse to develop an asthma action plan. This plan shall be developed by the student's health care provider, in partnership with the student and his/her parents/guardians, and shall include, but not be limited to, information regarding the student's symptoms and severity, asthma triggers, necessary medications, and the parent/guardian's authorization for the health care provider's disclosure of health information to the Tehama County Department of Education. The County Superintendent or designee shall request that the parents/guardians submit an updated plan each school year or whenever there are changes in the student's health condition or treatment.

When a student with asthma has been identified as disabled pursuant to Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act, necessary accommodations and services shall be identified as part of the student's Section 504 services plan or individualized education program (IEP), as appropriate.

Any student who needs to take prescribed medication during the school day may be assisted by a school nurse or designated school personnel or allowed to carry and self-administer inhaled asthma medication provided that the Department receives written statements from the student's physician and parent/guardian in accordance with Education Code 49423.1 and SP/AR 5141.21 - Administering Medication and Monitoring Health Conditions. Parents/guardians shall be requested to provide quick relief medication to be administered in accordance with the student's asthma action plan.
ASTHMA MANAGEMENT (continued)

Students shall be encouraged to notify their teacher, physical education teacher, coach, or other staff when they are experiencing difficulty breathing and/or need to alter their physical activity level. A student experiencing symptoms shall be encouraged to use his/her quick relief medication. The student should be supervised on school grounds by a responsible adult until he/she is no longer experiencing symptoms and/or his/her parent/guardian has been contacted.

In case of emergency, staff shall call 911 and assist the student in the administration of quick relief medication as authorized in the student's asthma action plan, Section 504 services plan, or IEP. Staff shall contact the student's parent/guardian or other person identified as an emergency contact and shall supervise the student until his/her care has been assumed by a health professional, parent/guardian, or designated emergency contact.

Education and Support Services

Asthma management and support systems shall be coordinated by a school nurse, other qualified health professional, or educator who has received appropriate training.

Staff shall be provided professional development which includes information about symptoms and common triggers of asthma, ways to reduce acute symptoms, and emergency response procedures. This professional development may be provided by an outside consultant or organization, a school nurse, other qualified health professional, or educator who has received appropriate training.

The County Superintendent or designee shall provide each school site with information regarding emergency management of asthma to post in easily accessible locations.

A school nurse or other qualified personnel may provide education to students with asthma using approved curriculum. Upon request by a student or his/her parents/guardians, the County Superintendent or designee may provide information about available medical resources, including school-based health services as appropriate.

Environmental Assessment

The County Superintendent or designee may periodically conduct an environmental assessment to identify and reduce the presence of common asthma triggers, including, but not limited to, pesticides, chemical pollutants, mold, and animal and dust mite allergens, in the school environment.

The County Superintendent or designee shall communicate with each school Program Administrator when local health advisories are issued for high ozone days or poor outdoor air quality so that outdoor physical activities may be curtailed as necessary.

HEAD LICE

The Tehama County Department of Education is committed to maximizing students' academic performance and physical wellbeing in a healthy and safe environment. The Department recognizes that head lice infestations do not pose a health hazard, are not a sign of uncleanliness, and are not responsible for the spread of any disease. However, archaic policies cause many unnecessary absences from school with potential negative effects on academic performance. Misinformation about head lice causes anxiety for parents and school staff.

The Department defines a healthy and safe environment as one in which adults work together to provide the following environmental factors established by current research as necessary for the health and wellbeing of students with head lice:

- Educating staff, students, and parents/guardians about head lice.
- Establishing evidence based management for students with head lice.

The goals of providing a healthy and safe environment for students with head lice are to:

- Maximize academic performance
- Minimize absence due to unnecessary exclusion of students with head lice

HEADING

To better manage and to limit the spread of head lice infestations, department employees shall report all suspected cases of head lice to the school nurse or designee. The school nurse or designee shall examine the student. An infestation shall be determined by looking closely through the hair and scalp for viable nits (≤ 1cm from the scalp) or live lice.

If nits are found but there are no live (crawling) lice on the hair, the school nurse or designee shall re-inspect within 7-10 school days.

If live (crawling) lice are found on the hair, the parent/guardian shall be notified by the end of the day via phone, email, and/or a note sent home with the student. The child shall be allowed to remain in the classroom until notification of parent/guardian has been obtained. The parent/guardian shall be provided information on the biology of head lice, methods to eliminate infestation, and directions to examine household contacts for lice and nits. The school nurse or designee may notify parents/guardians in the affected classroom to encourage them to check their children and to treat, if appropriate, and/or examine other students most likely to have had direct head to head contact with the affected student.

Students should return to school within one day after being identified as having live lice. The parent/guardian should bring the child to the office to determine if the child is eligible to return to class. Absences greater than one day shall be considered an unexcused absence.

Affected students shall be discouraged from direct head to head contact with other students. The nurse or designee shall provide in-service education to staff regarding how to handle nits and/or lice in the classroom.

Information about head lice shall be sent home to all parents/guardians at the beginning of the school year.

Staff shall maintain the privacy of students identified as having head lice.
CHILD ABUSE PREVENTION AND REPORTING

Child Abuse Prevention

The Tehama County Superintendent of Schools recognizes the Tehama County Department of Education's responsibility to educate students about the dangers of child abuse so that they will acquire the skills and techniques needed to identify unsafe situations and to react appropriately and promptly.

Child Abuse Reporting

The County Superintendent recognizes that child abuse has severe consequences and that the Department has a responsibility to protect students by facilitating the prompt reporting of known and suspected incidents of child abuse. The County Superintendent or designee shall establish procedures for the identification and reporting of such incidents in accordance with law.

Employees who are mandated reporters, as defined by law and administrative regulation, are obligated to report all known or suspected incidents of child abuse and neglect. Mandated reporters shall not investigate any suspected incidents but rather shall cooperate with agencies responsible for investigating and prosecuting cases of child abuse and neglect.

The County Superintendent or designee shall provide training regarding the reporting duties of mandated reporters.

CHILD ABUSE PREVENTION AND REPORTING (continued)

Parent/Guardian Complaints

Upon request, the County Superintendent or designee shall provide parents/guardians with a copy of this administrative regulation which contain procedures for reporting suspected child abuse occurring at a school site to appropriate agencies. For parents/guardians whose primary language is other than English, such procedures shall be in their primary language and, when communicating orally regarding those procedures, an interpreter shall be provided.

To file a complaint against a Department employee or other person suspected of child abuse or neglect at a school site, parents/guardians may file a report by telephone, in person, or in writing with any appropriate agency identified above under "Reporting Procedures." If a parent/guardian makes a complaint about an employee to any other employee, the employee receiving the information shall notify the parent/guardian of procedures for filing a complaint with the appropriate agency. The employee also is obligated pursuant to Penal Code 11166 to file a report himself/herself using the procedures described above for mandated reporters.

Notifications

The County Superintendent or designee shall provide to all new employees who are mandated reporters a statement that informs them of their status as mandated reporters, of their reporting obligations under Penal Code 11166, and of their confidentiality rights under Penal Code 11167.

Before beginning employment, employees shall sign a statement indicating that they have knowledge of the reporting obligations under Penal Code 11166 and that they will comply with those provisions. The signed statements shall be retained by the County Superintendent or designee. (Penal Code 11166.5)

The County Superintendent or designee also shall notify all employees that:

1. A mandated reporter who reports a known or suspected instance of child abuse or neglect shall not be held civilly or criminally liable for making a report and this immunity shall apply even if the mandated reporter acquired the knowledge or reasonable suspicion of child abuse or neglect outside of his/her professional capacity or outside the scope of his/her employment. Any other person making a report shall not incur civil or criminal liability unless it can be proven that he/she knowingly made a false report or made a report with reckless disregard of the truth or falsity of the report. (Penal Code 11172)
CHILD ABUSE PREVENTION AND REPORTING (continued)

2. If a mandated reporter fails to report an incident of known or reasonably suspected child abuse or neglect, he/she may be guilty of a crime punishable by a fine and/or imprisonment. (Penal Code 11166)

3. No employee shall be subject to any sanction by the Department for making a report. (Penal Code 11166)
ACKNOWLEDGMENT OF EMPLOYEE'S KNOWLEDGE OF CHILD ABUSE REPORTING OBLIGATIONS

Section 11166 of the Penal Code requires any child care custodian, medical practitioner, non-medical practitioner, or employee of a child protective agency who has knowledge of or observes a child (a person under the age of 18 years) in his or her profession capacity who he or she knows or reasonably suspects has been the victim of child abuse to report the known or suspected instance of child abuse to a child protection agency immediately or as soon as possible, by telephone and to prepare and send a written report thereof within 36 hours of receiving the information concerning the incident.

"Child abuse" means a physical injury which is inflicted by other than accidental means on a child by another person. It includes the sexual assault of a child (i.e., rape, sexual exploitation, incest, sodomy, oral copulation, penetration of a genital or anal opening by a foreign object or other acts of child molestation). "Child abuse" also includes willful cruelty, unjustifiable punishment or corporal punishment resulting in trauma, medical neglect, the infliction of mental suffering and neglect.

The report must be made whenever there is "reasonable suspicion" that child abuse has occurred. "Reasonable suspicion" means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his or her training and experience, to suspect child abuse.

The telephonic report of child abuse shall be made to Children's Protective Services at (530) 527-1911 (day) or 1-800-323-7711 (night) or to the law enforcement agency in your jurisdiction. The report shall be made immediately or as soon as possible. The written report shall be directed to: Children's Protective Services, Tehama County Department of Social Services, P.O. Box 1515, Red Bluff, California 96080.

I have read the foregoing and I understand my responsibility to report child abuse.

SUICIDE PREVENTION

The Governing Board and County Superintendent recognize that suicide is a leading cause of death among youth and that school personnel who regularly interact with students are often in a position to recognize the warning signs of suicide and to offer appropriate referral and/or assistance. To attempt to reduce suicidal behavior and its impact on students and families, the Superintendent or designee shall develop measures and strategies for suicide prevention, intervention, and postvention.

In developing measures and strategies for use by the department, the Superintendent or designee may consult with health professionals, counselors, psychologists, social workers, administrators, other staff, parents/guardians, students, local health agencies, mental health professionals, and community organizations.

Such measures and strategies shall include, but are not limited to:

1. Staff development on suicide awareness and prevention for teachers, school counselors, and other department employees who interact with students in the secondary grades.
2. Methods for promoting a positive climate that enhances students’ feelings of connectedness with the school and that is characterized by caring staff and harmonious interrelationships among students.
3. Encouragement for students to notify appropriate personnel or other adults when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student’s suicidal intentions.
4. Crisis intervention procedures for addressing suicide threats or attempts.
5. Counseling and other postvention strategies for helping students, staff, and others cope in the aftermath of a student’s suicide.

As appropriate, these measures and strategies shall specifically address the needs of students who are at high risk of suicide, including, but not limited to, students who are bereaved by suicide; students with disabilities, mental illness, or substance use disorders; students who are experiencing homelessness or who are in out-of-home settings such as foster care; and students who are lesbian, gay, bisexual, transgender, or questioning youth. Staff Development

Suicide prevention training shall be provided to teachers, counselors, and other department employees who interact with students at the secondary level. The training shall be offered under the direction of a department counselor/psychologist and/or in cooperation with one or more community mental health agencies.

Materials for training shall include how to identify appropriate mental health services at the site and within the community, and when and how to refer youth and their families to those services. Materials also may include programs that can be completed through self-review of suitable suicide prevention materials. (Education Code 215)

Staff development shall include research and information related to the following topics:

1. The higher risk of suicide among certain groups, including, but not limited to, students who are bereaved by suicide; students with disabilities, mental illness, or substance use disorders; students who are experiencing homelessness or who are in out-of-home settings such as foster care; and students who are lesbian, gay, bisexual, transgender, or questioning youth.

2. Individual risk factors such as previous suicide attempt(s) or self-harm, history of depression or mental illness, family history of suicide or violence, feelings of isolation, interpersonal conflicts, a recent severe stressor or loss, family instability, impulsivity, and other factors.

3. Warning signs that may indicate depression, emotional distress, or suicidal intentions, such as changes in students’ personality or behavior and verbalizations of hopelessness or suicidal intent.

4. Protective factors that may help to decrease a person’s suicide risk, such as resiliency, problem-solving ability, access to mental health care, and positive connections to family, peers, school, and community.

5. Instructional strategies for teaching the suicide prevention curriculum and promoting mental and emotional health.

6. School and community resources and services, including resources and services that meet the specific needs of high-risk groups.
Students

SUICIDE PREVENTION

7. Department procedures for intervening when a student attempts, threatens, or discloses the desire to die by suicide.

Instruction

The department’s comprehensive health education program shall promote the healthy mental, emotional, and social development of students and shall be aligned with the state content standards and curriculum framework. Suicide prevention instruction shall be incorporated into the health education curriculum at appropriate secondary grades and shall be designed to help students.

1. Identify and analyze signs of depression and self-destructive behaviors and understand how feelings of depression, loss, isolation, inadequacy, and anxiety can lead to thoughts of suicide.

2. Develop coping and resiliency skills and self-esteem.

3. Learn to listen, be honest, share feelings, and get help when communicating with friends who show signs of suicidal intent.

4. Identify trusted adults, school resources, and/or community crisis intervention resources where youth can get help and recognize that there is no stigma associated with seeking services for mental health, substance abuse, and/or suicide prevention.

Intervention

Students should be encouraged to notify a teacher, principal, counselor, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student’s suicidal intentions.

Every statement regarding suicidal intent shall be taken seriously. Whenever a staff member suspects or has knowledge of a student’s suicidal intentions based on the student’s verbalizations or act of self-harm, he/she shall promptly notify the superintendent or associate superintendent.

Although any personal information that a student discloses to a counselor or staff member shall generally not be revealed, released, referenced, or discussed with third parties, the counselor or staff member may report to the superintendent or the student’s parents/guardians when he/she has reasonable cause to believe that disclosure is necessary to avert a clear and present danger to the health, safety, or welfare of the student. In addition, the staff member may disclose information of a personal nature to psychotherapists, other health care providers, or the department nurse for the sole purpose of referring the student for treatment. (Education Code 49602)
Students

SUICIDE PREVENTION

An employee shall act only within the authorization and scope of his/her credential or license. An employee is not authorized to diagnose or treat mental illness unless he/she is specifically licensed and employed to do so. (Education Code 215).

When a suicide attempt or threat is reported, the superintendent or designee shall ensure student safety by taking the following actions:

1. Immediately securing medical treatment and/or mental health services as necessary.

2. Notifying law enforcement and/or other emergency assistance if a suicidal act is being actively threatened.

3. Keeping the student under continuous adult supervision until the parent/guardian and/or appropriate support agent or agency can be contracted and has the opportunity to intervene.

4. Removing other students from the immediate area as soon as possible.

The superintendent or designee shall document the incident in writing, including the steps that were taken in response to the suicide attempt or threat.

The superintendent or designee shall follow-up with the parent/guardian and student in a timely manner to provide referrals to appropriate services as needed. If the parent/guardian does not access treatment for the student, the superintendent or designee may meet with the parent/guardian to identify barriers to treatment and assist the family in providing follow-up care for the student. If follow-up care is still not provided, the superintendent or designee shall consider whether he/she is required, pursuant to laws, for mandated reporters of child neglect, to refer the matter to the local child protective services agency.

For any student returning to school after a mental health crisis, the superintendent or designee and/or counselor may meet with the parents/guardians and, if appropriate, with the student to discuss re-entry and appropriate next steps to ensure the student’s readiness for return to school.

Postvention

In the event that a student dies by suicide, the superintendent or designee shall communicate with the student’s parents/guardians to offer condolences, assistance, and resources. In accordance with the laws governing confidentiality of student record information, the superintendent or designee shall consult with the parents/guardians regarding facts that may be divulged to other students, parents/guardians, and staff.
Students

SUICIDE PREVENTION

The superintendent or designee shall implement procedures to address students’ and staff’s grief and to minimize the risk of imitative suicide or suicide contagion. He/she shall provide students, parents/guardians, and staff with information, counseling, and/or referrals to community agencies as needed. School staff may receive assistance from school counselors or other mental health professionals in determining how best to discuss the suicide or attempted suicide with students.

Any response to media inquiries shall be handled by the superintendent or designee who shall not divulge confidential information. The department’s response shall not sensationalize suicide and shall focus on the department’s postvention plan and available resources.

After any suicide or attempted suicide by a student, the superintendent or designee shall provide an opportunity for all staff who responded to the incident to debrief, evaluate the effectiveness of the strategies used, and make recommendations for future actions.

DISCIPLINE

The Tehama County Superintendent of Schools desires to prepare students for responsible citizenship by fostering self-discipline and personal responsibility. The County Superintendent believes that high expectations for student behavior, effective classroom management and parent involvement can minimize the need for discipline. Staff shall use preventative measures and positive conflict resolution techniques whenever possible.

County Superintendent policies and regulations shall delineate acceptable student conduct and provide the basis for sound disciplinary practices. Each school shall develop disciplinary rules to meet the school's individual needs.

When misconduct occurs, staff shall implement appropriate discipline and attempt to identify and address the causes of the student's behavior. Continually disruptive students may be assigned to alternative programs or removed from school in accordance with law, Department policy and administrative regulation. At all times, the safety of students and staff and the maintenance of an orderly school environment shall be priorities in determining appropriate discipline.

Staff shall enforce disciplinary rules fairly, consistently and without discrimination.

SUSPENSION AND EXPULSION/DUE PROCESS

Suspension by the Board

The County Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the County Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold closed sessions if a public hearing would lead to disclosure of information violating a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The County Board shall provide the student and his/her parent/guardian with written notice of the closed session by registered or certified mail or personal service. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the County Superintendent's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)
STUDENT EXPULSION APPEALS

The Tehama County Board of Education shall hear and determine an appeal of an expulsion order issued against a student by a school district within the jurisdiction of the county.

A student expelled by the governing board of a school district or his/her parent/guardian (appellant) may appeal the expulsion to the County Board within 30 days of the school district’s action. The appeal shall be filed in writing and shall include the following information:

1. Name of the expelled student
2. Contact address and telephone number of the student and/or parent/guardian
3. Name of respondent school board
4. Date of respondent school board’s action to expel student
5. Ground(s) on which appeal is based

The appellant shall submit to the County Board, a certified copy of the written transcripts and supporting documents of the proceedings before the school district. Because delay in receiving the transcripts may prejudice the student’s case, the student is encouraged to request a copy of the transcripts and other related records from the District no later than the date on which the appeal is filed. (Education Code 48921)

The County Board shall hold a hearing within 20 school days of the filing of the appeal. (Education Code 48919)

No later than 10 days prior to the hearing, the secretary to the County Board shall serve upon the student and the respondent school board, by certified mail, return receipt requested, a notice of the hearing including details such as the date, time and place of the hearing. The notice shall also contain a statement that the hearing shall be in closed session unless the student requests in writing at least five days prior to the hearing, that the hearing be conducted in open session.

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the County Board shall hear an appeal of an expulsion order in closed session, unless the student requests in writing at least five days prior to the hearing that the hearing be conducted at a public meeting. If such request is made, the hearing shall be public unless another student’s privacy rights would be violated. (Education Code 48920)
STUDENT EXPULSION APPEALS (continued)

Whether the expulsion hearing is held in closed or public session, the County Board may meet in closed session to deliberate on the appeal. If the County Board admits one of the parties or their representative(s) to the closed session, the other party or their representative(s) shall also be allowed to attend the closed session. (Education Code 48920)

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48919)

Scope of Review

The County Board shall determine the appeal based on the record of the hearing before the district board and other applicable documentation and/or regulations. No evidence other than that contained in the record of proceedings of the district board shall be heard except in a de novo proceeding, granted pursuant to Education Code 48923. (Education Code 48921)

A de novo proceeding involves an independent determination by the County Board, of all the issues previously considered by the school district board.

The County Board’s review shall be limited to: (Education Code 48922)

1. Whether the district board acted without or in excess of its jurisdiction.

2. Whether there was a fair hearing before the district board.

3. Whether there was a prejudicial abuse of discretion in the hearing. Abuse of discretion is established if:

   a. School officials did not meet the procedural requirements of Education Code 48900-48926;

   b. The decision to expel the student is not supported by the findings prescribed by Education Code 48915; or

   c. The findings are not supported by the evidence

4. Whether there is relevant and material evidence which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before the district board.
STUDENT EXPULSION APPEALS (continued)

Final Order of the County Board

The County Board shall render its final decision within three school days of the hearing unless the student requests a postponement. (Education Code 48919)

The County Board’s decision shall be limited as follows: (Education Code 48923)

1. Where the County Board finds that relevant and material evidence exists which, in the exercise of reasonable diligence, could not have been produced, or which was improperly excluded at the hearing before the district governing board, the County Board may remand the matter to the governing board for reconsideration or grant a hearing *de novo*.

2. Where the County Board determines that the governing board’s decision is not supported by findings required to be made by Education Code 48915, but evidence supporting such findings exists in the record of the proceedings, the County Board shall remand the matter to the District Board for adoption and inclusion of the required findings.

3. In all other cases, the County Board shall either affirm or reverse the decision of the governing board. If the County Board reverses a governing board’s decision, the County Board may direct the governing board to expunge all references to the expulsion action from the district and student’s records, and the expulsion shall be deemed not to have occurred.

The decision of the County Board shall be final and binding upon the student and the governing board. The student and the governing board shall be notified of the final order of the County Board, in writing, either by personal service or by certified mail. The order shall become final when rendered. QUESTIONING AND APPREHENSION BY LAW ENFORCEMENT

The Tehama County Superintendent of Schools is committed to providing a safe learning environment and cooperating with law enforcement officials and peace officers as necessary to help ensure the safety of students, staff, and the community and in carrying out their official duties.

In accordance with standards specified in law and court decisions, law enforcement officers may interview and question students on school premises. The County Superintendent or designee shall collaborate with local law enforcement agencies to develop parameters under which law enforcement officers will interview students at school.

When any law enforcement official requests an interview with a student, the Program Administrator or designee shall request that the official provide verification of his/her identity and official capacity and certify the legal authority under which the interview is being conducted. If the officer refuses to provide certification of the legal authority for the interview, the Program Administrator or designee shall document such refusal and should consult with Tehama County Department of Education legal counsel, as appropriate, before allowing the interview to proceed. The Program Administrator or designee shall maintain a record of all documentation relative to law enforcement interviews of students.

If the officer needs to interview or question the student immediately, the Program Administrator or designee shall accommodate the process in a way that causes the least possible disruption for the student and school, gives the student appropriate privacy, and models exemplary cooperation with law enforcement authorities.

Except in cases of child abuse or neglect, the Program Administrator or designee shall attempt to notify the student's parent/guardian as soon as practicable after law enforcement has interviewed the student on school premises.

At law enforcement's discretion and with the student's approval, the Program Administrator or designee may be present during the interview.

If a minor student is removed from school into the custody of law enforcement, the Program Administrator or designee shall immediately notify the parent/guardian or responsible relative regarding the student's release and the place to which he/she is reportedly being taken, except when the minor has been taken into custody as a victim of suspected child abuse. (Education Code 48906)
QUESTIONING AND APPREHENSION BY LAW ENFORCEMENT  (continued)

Subpoenas

Although subpoenas may legally be served at school on students age 12 or older, the County Superintendent believes that serving officials should be strongly urged to serve subpoenas at the home of the student whenever possible. When served at school, the Program Administrator or designee shall take all reasonable steps to ensure a minimum of embarrassment or loss of class time for the student.

SEARCH AND SEIZURE

The Tehama County Superintendent of Schools is fully committed to promoting a safe learning environment and, to the extent possible, eliminating the possession and use of weapons, illegal drugs, and other controlled substances by students on school premises and at school activities. As necessary to protect the health and welfare of students and staff, school officials may search students, their property, and/or Tehama County Department of Education property under their control and may seize illegal, unsafe, or otherwise prohibited items.

The County Superintendent urges that employees exercise discretion and good judgment. When conducting a search or seizure, employees shall act in accordance with law, Department policy, and administrative regulation.

Individual Searches

School officials may search any individual student, his/her property, or Department property under his/her control when there is a reasonable suspicion that the search will uncover evidence that he/she is violating the law, Department policy, administrative regulation, or other rules of the Department or the school. Reasonable suspicion shall be based on specific and objective facts that the search will produce evidence related to the alleged violation. The types of student property that may be searched by school officials include, but are not limited to, lockers, desks, purses, backpacks, student vehicles parked on Department property, cellular phones, or other electronic communication devices.

Any search of a student, his/her property, or Department property under his/her control shall be limited in scope and designed to produce evidence related to the alleged violation. Factors to be considered by school officials when determining the scope of the search shall include the danger to the health or safety of students or staff, such as the possession of weapons, drugs, or other dangerous instruments, and whether the item(s) to be searched by school officials are reasonably related to the contraband to be found. In addition, school officials shall consider the intrusiveness of the search in light of the student's age, gender, and the nature of the alleged violation.

Employees shall not conduct strip searches or body cavity searches of any student. (Education Code 49050)

Searches of individual students shall be conducted in the presence of at least two Department employees.

The Program Administrator or designee shall notify the parent/guardian of a student subjected to an individualized search as soon as possible after the search.
SEARCH AND SEIZURE  (continued)

Searches of Multiple Student Lockers/Desks

All student lockers and desks are the property of the Department. The Program Administrator or designee may conduct a general inspection of school properties that are within the control of students, such as lockers and desks, on a regular, announced basis, with students standing by their assigned lockers or desks. Any items contained in a locker or desk shall be considered to be the property of the student to whom the locker or desk was assigned.

Use of Metal Detectors

The County Superintendent believes that the presence of weapons in the schools threatens the Department's ability to provide the safe and orderly learning environment to which Department students and staff are entitled. The County Superintendent also believes that metal detector searches offer a reasonable means to keep weapons out of the schools and mitigate the fears of students and staff.

Responding to Requests for Information

Unless authorized by the Family Educational Rights and Privacy Act pursuant to 20 USC 1232g, student information shall not be disclosed to immigration law enforcement authorities without parental consent, a court order, or judicial subpoena. The Superintendent or designee shall annually notify the parents/guardians that the department will not release student information to third parties for immigration enforcement purposes, unless the parent/guardian consents or as required to do so by a court order or judicial subpoena.

Upon receiving any verbal or written request for information related to a student’s or family’s immigration or citizenship status, department staff shall:

1. Notify the Superintendent or designee about the information request.
2. Provide students and families with appropriate notice and a description of the immigration officer’s request.
3. Document any request for information by immigration authorities.
4. Provide students and parents/guardians with any documents provided by the immigration enforcement officer, unless such disclosure is prohibited by a subpoena served on the department or in cases involving investigations of child abuse, neglect, or dependency.

Resources and data collected by the department shall not be used, directly or by others, to compile a list, registry, or database of individuals based on national origin, immigration status, religion, or other category of individual characteristics protected against unlawful discrimination. (Government Code 8310.3)

Responding to Requests for Access to Students of School Grounds

Department staff shall receive parent/guardian consent before a student is interviewed or searched by any officer seeking to enforce civil immigration laws at the school, unless the officer presents a valid, effective warrant signed by a judge or a valid, effective court order. A student’s parent/guardian shall be immediately notified if a law enforcement officer requests or gains access to the student for immigration enforcement purposes, unless the judicial warrant or subpoena restricts disclosure to the parent/guardian.

All visitors and outsiders, including immigration enforcement officers, shall register with the front office upon entering school grounds during school hours. Each visitor or outsider shall provide staff with his/her name, address, occupation, age if less than 21, purpose in entering school grounds, proof of identity, and any other information required by law. Red Bluff, California
NONDISCRIMINATION/HARASSMENT

The Tehama County Superintendent of Schools desires to ensure equal opportunities for all students in admission and access to the Tehama County Department of Education's educational programs, guidance and counseling programs, athletic programs, testing procedures, and other activities. Department programs and activities shall be free from discrimination, including harassment, with respect to a student's actual or perceived sex, gender, ethnic group identification, race, national origin, religion, color, physical or mental disability, age, or sexual orientation.

The County Superintendent prohibits discrimination, intimidation, or harassment of any student by any employee, student, or other person in the Department. Prohibited harassment includes physical, verbal, nonverbal, or written conduct based on one of the categories listed above that is so severe and pervasive that it affects a student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the purpose or effect of substantially or unreasonably interfering with a student's academic performance; or otherwise adversely affects the student's educational opportunities.

School staff and volunteers shall carefully guard against segregation, bias, and stereotyping in the delivery of services, including, but not limited to, instruction, guidance, and supervision.

The Program Administrator or designee shall develop a plan to provide students with appropriate accommodations when necessary for their protection from threatened or potentially harassing or discriminatory behavior.

Students who engage in discrimination, harassment, intimidation, bullying, or retaliation in violation of law, Department policy, or administrative regulation shall be subject to appropriate discipline, up to and including counseling, suspension, and/or expulsion. Any employee who permits or engages in prohibited discrimination, harassment, intimidation, bullying, or retaliation shall be subject to disciplinary action, up to and including dismissal.

Grievance Procedures

The County Superintendent or designee shall ensure that the student handbook clearly describes the Department's nondiscrimination policy, procedures for filing a complaint regarding discrimination or harassment, intimidation or bullying, and the resources that are available to students who feel that they have been the victim of such behavior. The Department's policy may also be posted on the Department website or any other location that is easily accessible to students.

SEXUAL HARASSMENT

The Tehama County Superintendent of Schools is committed to maintaining an educational environment that is free from harassment and discrimination. The County Superintendent prohibits sexual harassment of students by other students, employees, or other persons, at school or at school-sponsored or school-related activities. The County Superintendent also prohibits retaliatory behavior or action against persons who complain, testify, assist, or otherwise participate in Tehama County Department of Education complaint processes.

Complaint Process

Any student who feels that he/she is being or has been sexually harassed by a school employee, another student, or a non-employee on school grounds or at a school-related activity (e.g., a visiting athlete or coach) shall immediately contact his/her teacher or any other employee. An employee who receives such a complaint shall report it in accordance with administrative regulation.

The County Superintendent or designee shall ensure that any complaints regarding sexual harassment are immediately investigated in accordance with administrative regulation. Disciplinary Actions

Any student who engages in sexual harassment of anyone at school or at a school-sponsored or school-related activity is in violation of this policy and shall be subject to disciplinary action. For students in grades 4-12, disciplinary action may include suspension and/or expulsion, provided that, in imposing such discipline, the entire circumstances of the incident(s) shall be taken into account.

DROPOUT PREVENTION

The Tehama County Superintendent of Schools recognizes that regular school attendance is critical to student learning and achievement. The County Superintendent desires to provide a learning environment that engages students, helps them become self-motivated, encourages regular attendance, and enables them to meet Tehama County Department of Education standards and to graduate.

The County Superintendent or designee shall develop strategies to identify and serve students at all grade levels who are at risk of dropping out of school. Students may be identified on the basis of indicators such as frequent absenteeism, truancy, or tardiness; below-grade-level achievement; or personal, social, health, or economic concerns that may make a student more likely to drop out of school.

The school site council at each school shall develop a comprehensive school plan for student retention in accordance with law, Department policy, and administrative regulation. The plan shall be designed to help reduce student absenteeism and dropout rates and to improve student achievement.

PRESCHOOL/EARLY CHILDHOOD EDUCATION

The Tehama County Superintendent of Schools recognizes that high-quality preschool experiences for children ages 3-4 years help them develop knowledge, skills, and attributes necessary to be successful in school and provide for a smooth transition into the elementary education program. Such programs should provide developmentally appropriate activities in a safe, well-supervised, cognitively rich environment.

Collaboration with Community Programs

The County Superintendent or designee shall collaborate with other agencies, organizations, and private preschool providers to assess the availability of preschool programs in the community and the extent to which the community's preschool needs are being met. The County Superintendent encourages the development of a community-wide plan to increase children's access to high-quality preschool programs.

Information about preschool options in the community shall be provided to parents/guardians upon request.

The County Superintendent or designee shall establish partnerships with feeder preschools to facilitate articulation of the preschool curriculum with the Tehama County Department of Education's elementary education program.

Department Preschool Programs

When the County Superintendent determines that it is feasible, the Department may provide preschool services in facilities at or near Department schools.

The County Superintendent shall set priorities for establishing or expanding services as resources become available. In so doing, the County Superintendent shall give consideration to the benefits of providing early education programs for at-risk children and/or children residing in the attendance areas of the lowest performing Department schools.

On a case-by-case basis, the County Superintendent shall determine whether the Department shall directly administer preschool programs or contract with public or private providers to offer such programs.

To enable children of working parents/guardians to participate in the Department's preschool program, the County Superintendent or designee shall recommend strategies to provide a full-day program and/or to link to other full-day child care programs in the Department or community to the extent possible.

Because parents/guardians are essential partners in supporting the development of their children, the County Superintendent or designee shall involve them in program planning. Program staff shall encourage volunteerism in the program and shall communicate frequently with parents/guardians of enrolled children regarding their child's progress.
PRESCHOOL/EARLY CHILDHOOD EDUCATION (continued)

The Department's program shall be aligned with preschool learning foundations published by the California Department of Education which identify the knowledge, skills, and competencies that children typically attain as they complete their first or second year of preschool. Program components shall address social-emotional, physical, and cognitive development in key areas that are necessary for kindergarten readiness.

The Department's preschool program shall provide appropriate services to support the needs of English language learners and children with disabilities.

To maximize the ability of children to succeed in the preschool program, program staff shall support children's health through proper nutrition and physical activity and shall provide or make referrals to health and social services.

The County Superintendent or designee shall ensure that administrators, teachers, and paraprofessionals in Department preschool programs possess the appropriate permit(s) issued by the Commission on Teacher Credentialing, meet any additional qualifications established by the County Superintendent, and participate in professional development opportunities designed to continually enhance their knowledge and skills.

The County Superintendent or designee shall develop and implement an annual plan of evaluation which conforms to state requirements. (5 CCR 18279)
